CHECK YOUR MAILING LIST: MAKE SURE WE GET YOUR CHART EVERY WEEK.
Sometimes, radio stations take exception to the way they are treated and make a noise about it. "Talk Back" reprints the back page of the CKLB chart. "This is the first time that we've taken up the back page of the KL TUNEDEX to editorialize (and we hope it's the last). However, a situation has arisen, and CKLB wants to hear its listeners viewpoints. We may be wrong, but we doubt it. As you probably know, record companies supply radio stations in Canada and the USA with free copies of the 45 RPM records that they manufacture, in the hopes that the stations will play them and that the listeners, after hearing them, will buy them. This has been the case as long as radio has existed. Naturally, radio stations play the records that the public asks for, and eventually, some of them become hits, actually, a small percentage of the total number of records received. Now, one of the larger record companies has taken things upon themselves to change this system to one they believe to be better. Read on and form your own conclusion. The head office of this company, located in Montreal with a branch office in Toronto, now sends records to only what they consider the top stations in the top radio markets. Oshawa is not considered important enough to receive their records. Some of the top-selling artists you will not be hearing on CKLB because of this company's policy are: Bobby Darin, April Stevens & Nino Tempo, Bobby Vee, Fats Domino, to name only a few. Is CKLB wrong in raising its voice in objection to this matter? Write to Terry Mann, CKLB, Oshawa, and give us your opinions.

We expect to receive comments on the size of the type on Page 4 so we will make our explanations now. This type is larger than 40% of the charts we receive and larger than the type in the Telephone Directory.

TOP FORTY DJ's ENJOY CULTURE: It was interesting and encouraging to see the number of DJ's taking advantage of the invitation to attend the Stratford Shakespearian Festival. JOHN DOLAN, CKEY commented "I was proud to be a Canadian." We hope this feeling catches on.

"Give Me Your Love" ANDY KIM (20th) is making it internationally. Latest to add this disc to their playlist is JOEY REYNOLDS' station WKBW Buffalo. It shows up on KB as No. 36.

PROMOTION P R O M O T I O N PROMOTION and the lack of. From this position we sometimes feel that one of the main reasons we fall short with our own product is a lack of efficiency on the part of promoters. With so much foreign product to look after, who has time to look after building a hit? In one case, we have never received a copy of one of Canada's top recording artists. In another, a radio station, an artist and a record company haven't been able to get a copy of a new disc to us for listing. In another case a company that JUST NORMALLY does good promotion is mentioned so often in RPM that we are accused of favoritism. It's so much easier to jump on a painted wagon thats rolling, than to get out and push. PUSH GENTLEMEN, PUSH!!!!!!!!!

RADIO STATIONS. With only a few exceptions, the TOP stations across the nation are the most promotion conscious. Possibly that is why they are TOP stations.

We would like to take issue with any station not listing "French Song" by LUCILLE STARR and "Larry" by the ALLEN SISTERS. These are two of the finest Canadian records on the market. Perhaps the record companies should reservice the stations. If they haven't got the disc they can't play it. If you do have these records give them another listen. We are sure you can find room on your chart.
QUOTA QUICKIES: We have mentioned this term many times in our conversations with people in the industry and they have asked us to elaborate somewhat. "Quota quickies" come into being when you have government control of radio, TV and films. Take the radio industry for example. When a government receives enough complaints regarding the lack of recognition given to the country's own recording artists, they are compelled to rush headlong into an industry they are not familiar with and establish controls left and right, making it law that 50% or more of the music heard on radio must be of domestic origin. The industry is more than likely not capable of performing this feat, but the solution is left up to the record companies. Now come the "Quota quickies. Quantity, but no time for quality.

We have heard it said "it could never happen in Canada". We hope not, but rumour has it that THE POWERS THAT BE are being pressured. SOLUTION: at the risk of being overly repetitious and trying with difficulty to stay off our soapbox, program just a little more Canadian content. Raise our percentage to 8. The task is a little easier, now with the Canadian record companies producing, possibly the best sound ever. Certainly a sound that compares favorably with any on the world market.

We were asked recently if you required a border crossing pass or visa to visit CKLW Detroit. We always thought this station was in Windsor. This is one of those strange situations that perhaps the Canadian government does not like to be reminded of. There is a law..... controlling interest of a Canadian radio station must be held by a Canadian. No doubt there is a good reason, we will get letters. Maybe CKLW will even honour us by playing something Canadian, other than the National anthem, if they play the National anthem. The reason the question was asked was because of many enquiries from American interests on the possibility of buying into Canada's broadcasting future.

We understand there is a choice broadcasting outlet for sale for a ridiculous price. This station is very close to a major Maritime market. If you require any further information drop us a line.

If you have ever read the comic strip "Gordo" you're well acquainted with the I.S.G.W. CKY Winnipeg is the first radio station in the world to form its own chapter of the International Society of Girl Watchers. Special kits for radio stations are being prepared. We would be interested also, a good substitute for birds. CKY would also like to make a prediction - MARGARET SMITH, Miss CKY will be the next Miss Manitoba, CKY still the top promo station in Canada.

STAN KLEES, Tamarac records reports a flurry of letters and telephone calls on the recent release of JAYSON KING's single "Bamboo Man" b/w "Heartaches" The American "trades" report a breakout of this disc in Miami and are picking it as a sure shot.

WATCH FOR OUR FORMAT to soon be adopted by a publication elsewhere on our continent. WHATS NEW!! Copycatting is THE sincerest form of flattery.

OH YES IT DOES...... A Canadian record must be released in the US before it can be reviewed by the American Trades #%&*%$.

LITTLE OLD LADY
FROM PASADENA Jan & Dean

Rambler... For some unknown reason, the ROGER MILLER single "Dang Me" is showing great action across the nation. It seems that many Canadian stations will be ignoring a recent release called "Farmer Brown" Our market is a little too staid for this type of SCREAMER. Possibly this one will get listings but only limited airplay. The title of Trini Lopez's current single is "What Have I Got of My Own?" The answer: Several thousand more records to "cover". Trini's only competition is Dot records and the English groups. Everytime we hear a radio station hoot and holler "This is another DOUBLE PLAY". We get the impression they have just informed the public that the spot between the next two records wasn't sold. The new PETER & GORDON single was a forced release. It's the old story of foreign copies being rushed into the North American market and forcing the release before scheduled. Our Picked record this week, RAG DOLL by THE FOUR SEASONS is already a giant and #1 in many areas of the U.S. It is already indicated that this will be the biggest yet for the group. The preferred version of "World Without Love" is the PETER & GORDON. The Rydell version is sadly lagging behind.
